

Sema4 Named a Cool Vendor by Gartner in the April 2020 Cool Vendors in Healthcare Technology Report

May 18, 2020

Leading research and advisory firm, Gartner, recognizes companies in its Cool Vendor report that are interesting, new, and innovative

STAMFORD, CT — May 18th, 2020 — [Sema4](#), a patient-centered health intelligence company, today announced that it has been named a 2020 Cool Vendor in Healthcare Technology by Gartner Inc., the world's leading research and advisory company.

According to Gartner's Cool Vendors in Healthcare Technology report, "healthcare delivery organizations are looking to control cost and respond to industry disruption. The profiled emerging technology and service providers help HDOs make data-driven decisions by leveraging chronic condition management, social determinants of health, virtual care and genetic screening." Health delivery organizations include entities such as hospitals, doctors' clinics, and medical specialists' offices.

Further, "this research identifies five cool vendors that are approaching the market with the right combination of product and business plans, which has lifted them past initial barriers to broader success." Sema4 is one of the five companies recognized in this report.

"We are honored to be named by Gartner as a Cool Vendor in Healthcare Technology," said [Eric Schadt](#), PhD, Founder and Chief Executive Officer of Sema4. "By applying artificial intelligence and big data analytics, we are transforming the utility of genomic testing for healthcare providers, and we believe that predictive modeling on large datasets will improve the diagnosis, treatment, and prevention of disease. We believe this recognition from Gartner indicates that our leading-edge work across women's health, oncology, and biopharma is making a big difference for both healthcare providers and patients."

Sema4's recognition in Gartner's Cool Vendors in Healthcare Technology report further builds on the company's momentum.

Notable developments over recent months include:

- [Sema4 is supporting the virtual patient experience during the COVID-19 outbreak](#), with the introduction of saliva kits which can be delivered directly to patients for tests such as expanded carrier screening and hereditary cancer;
- [Sema4 is performing rapid molecular testing for the detection of SARS-CoV-2](#), the coronavirus responsible for COVID-19 and is involved in several COVID-19 research programs; and
- [Sema4 welcomed Dr. Rachel Sherman to its board of directors](#), who served most recently as Principal Deputy Commissioner of Food and Drugs, the most senior career position at the FDA.
