#### Item 2.02 Results of Operations and Financial Condition.

On March 14, 2022, Sema4 Holdings Corp. ("Sema4 Holdings" or the "Company") issued a press release (the "Press Release") and will hold a conference call announcing the Company's financial results for the year ended December 31, 2021. Copies of the Press Release and Earnings Presentation are furnished as Exhibits 99.1 and 99.2, respectively, to this Current Report on Form 8-K.

The information furnished with this Item 2.02, including Exhibits 99.1 and 99.2, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any other filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

#### Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

In connection with the preparation of the Company's Annual Report on Form 10-K for the year ended December 31, 2021 (the "2021 10-K"), the Company identified an adjustment to the classification of certain expenses related to the genetic counseling department reported in cost of services that should have been reported in selling and marketing in the Company's prior period financial statements. Additionally, the Company has identified adjustments generally related to recognition of cost of services out of period in the three month periods ended March 31, 2021, June 30, 2021 and September 30, 2021.

On March 10, 2022, after discussion with Ernst & Young LLP, the Company's independent registered public accounting firm ("EY"), the Company's management, in consultation with the Audit Committee of the Board of Directors of the Company, concluded that it is appropriate (i) to correct the classification of such expenses in its statement of operations and comprehensive loss in the previously issued audited financial statements for the year ended December 31, 2020 and December 31, 2019, and (ii) to correct the classification of such expenses and the timing of recognition of cost of services in the unaudited financial information for the three months ended March 31, 2021 and 2020, June 30 2021 and 2020 and September 30, 2021 and 2020 (collectively the "Relevant Periods") by restating such audited and unaudited financial information because the adjustments are material to the financial statements for each of the Relevant Periods. As a result, the audited and unaudited financial statements for the Relevant Periods can no longer be relied on.

The Company will include the restated audited and unaudited financial statements for the Relevant Periods in the 2021 10-K which will be filed on March 14, 2022.

#### Sema4 Reports Fourth Quarter and Full Year 2021 Financial Results and Business Highlights

37% increase in fourth quarter test volumes (excluding COVID-19 tests) compared to the same period last year

Record quarterly test volume of nearly 83,000

24% growth in fourth quarter revenue (excluding COVID-19 tests) compared to the same period last year

Reiterating full year 2022 total revenue guidance of \$215-225 million

Sema4 to host conference call today at 4:30 p.m. ET

STAMFORD, CT — March 14, 2022 — Sema4 Holdings Corp. (Nasdaq: SMFR) ("Sema4"), an AI-driven genomic and clinical data intelligence platform company, today reported its financial results for the fourth quarter and full year ended December 31, 2021 and provided an update on key strategic and operational initiatives

"2021 was a transformative year during which we grew our test volumes and patient database, further established Sema4 as a partner of choice for health systems, advanced our strategic objectives to accelerate the growth of our platform of algorithms, and listed on Nasdaq as a public company," said Eric Schadt, PhD, Founder and Chief Executive Officer of Sema4. "We are well positioned for 2022 and are excited to see the investments in our key initiatives begin to scale our core business and further grow our data engine. We also continue to expect to close the acquisition of GeneDx by the end of Q2, which will significantly enhance the power of our Centrellis® platform and distance us as the market leader with the most comprehensive clinically relevant data set available for research and development purposes.

"I am pleased with our results in the quarter, and as we look ahead to 2022, I am encouraged by the trajectory of volumes and gross margins," said Isaac Ro. Chief Financial Officer of Sema4. "Investments in automation, people, and processes are now translating into tangible efficiencies. We expect gross margins to further improve throughout 2022.

#### Fourth Quarter & Recent Highlights

- Diagnostic testing volumes were up 37% in the fourth quarter of 2021 compared to the same period of 2020, with 82,966 tests resulted (excluding COVID-19 tests), including 142% growth in Oncology and 33% growth in
- Total revenue increased 24% in the fourth quarter of 2021 (excluding COVID-19 testing revenue) compared to the same period of 2020, resulting in total revenue of \$47.3 million compared to \$38.2 million
- Published two papers in November 2021 in partnership with the Mount Sinai Health System demonstrating the ability of Sema4's machine learning algorithms to predict clinical outcomes and drive meaningful changes in the standard of care for postpartum hemorrhage
- Announced the signing of a definitive agreement to acquire GeneDx, Inc. ("GeneDx") in January 2022, which is expected to strengthen Centrellis with more than 300,000 clinical exomes and over 2.1 million expertly annotated phenotypes

  Entered into definitive agreements for a \$200 million private placement financing from leading growth and life sciences investors, including Pfizer, in January 2022 in conjunction with the signing of the merger agreement for the pending GeneDx acquisition

  2020 with the addition of 20 year industry veteran. January SVP of Market Access
- Strengthened Market Access Team in February 2022 with the addition of 30-year industry veteran, Jerry Conway, Sema4's SVP of Market Access
- Included in Fast Company's prestigious annual list of the World's Most Innovative Companies in March 2022; named as one of the top three most innovative data science companies

#### Full Year 2021 Business Highlights

· Signed three new health system partnerships with NorthShore University HealthSystem, AdventHealth, and Avera Health, launching broad precision medicine initiatives to improve health outcomes

- Further developed our clinical trial and testing solutions, real world evidence studies, and casual network models for drug discovery in oncology, autoimmune and rare diseases, while also launching new transformative partnerships focused on creating significant value for pharmaceutical and biotech companies
- Launched Sema4 Elements®, our portfolio of data science-driven products and services to support reproductive and generational health, including a newly enhanced version of Sema4's Expanded Carrier Screen for pregnancy
- Debuted on the Nasdaq Stock Market as a publicly traded company after completing a business combination with CM Life Sciences (Nasdaq: CMLF), a special purpose acquisition company (SPAC) sponsored by affiliates of Casdin Capital, LLC and Corvex Management LP

#### Fourth Quarter and Full Year Financial Results

Total revenue for the fourth quarter of 2021 was \$57.8 million compared to \$64.0 million in the fourth quarter of 2020. Total revenue for the full year of 2021 was \$212.2 million compared to \$179.3 million for the full year of 2020. Year over year revenue growth was driven primarily by an increase in testing volumes of both our Women's Health and Oncology product lines.

Cost of services was \$60.6 million in the fourth quarter of 2021 compared to \$69.6 million in the same period of 2020. The decrease was a result of lower volumes in our COVID-19 business and lower stock-based compensation expense, offset by increased headcount, investments in systems, and higher logistical and supply costs due to increased volumes in our non-COVID-19 business. We anticipate these new investments will enable us to support continued volume growth with significantly higher cost efficiencies over time. Cost of services was \$228.8 million for the full year of 2021 compared to \$175.3 million for the full year of 2020. The annual increase was driven by increased stock-based compensation expense, increased headcount, and an increase in logistical expenses as a result of our expanded operations.

Adjusted cost of services, which excludes stock-based compensation expense and other one-time COVID-19-related expense, was \$58.0 million for the fourth quarter of 2021 compared to \$43.5 million in the same period of 2020. Adjusted cost of services was \$206.2 million for the full year of 2021 compared to \$142.8 million for the full year of 2020.

Operating expenses for the fourth quarter of 2021 were \$113.0 million compared to operating expenses of \$119.4 million for the fourth quarter of 2020. The decrease in operating expenses was due in part to lower stock-based compensation expense, offset by higher personnel-related costs as we built out our laboratory operations and further invested in our health intelligence platform, as well as incremental public company expense. Operating expenses for the full year of 2021 were \$429.5 million compared to operating expenses of \$246.0 million for the full year of 2020.

Adjusted operating expenses, which excludes stock-based compensation, for the fourth quarter of 2021 were \$78.6 million compared to \$38.9 million in the same period of 2020. Adjusted operating expenses, which excludes stock-based compensation expense and non-recurring transaction expenses, for the full year of 2021 were \$227.2 million compared to \$138.7 million for the full year of 2020.

Net loss for the fourth quarter of 2021 was (\$40.2) million as compared to a net loss of (\$125.7) million for the same period in 2020. Fourth quarter of 2021 net loss included other income of \$76.2 million tied to the decrease in liabilities attributable to warrant and earn-out contingent liabilities recorded in connection with the merger with CM Life Sciences. Net loss for the full year of 2021 was (\$245.4) million compared to a net loss of (\$241.3) million for the full year of 2020.

Total cash and cash equivalents were \$400.6 million as of December 31, 2021. As of March 07, 2022, Sema4 had 244,959,781 outstanding shares of Class A common stock.

#### Fiscal Year 2022 Guidance

Sema4 expects fiscal year 2022 total revenue to be in the range of \$215 to \$225 million. Fiscal year 2022 resulted test volume growth is expected to exceed 20% when compared to resulted volume for the full year of 2021 (excluding COVID-19 tests). Fiscal year 2022

 $adjusted gross \ margin \ is \ expected \ to \ exceed \ 10\%^1. \ The \ 2022 \ revenue, \ volume, \ and \ adjusted gross \ margin \ guidance \ excludes \ any \ contribution \ from \ the \ company's \ pending \ acquisition \ of \ Gene Dx.$ 

#### Mahasat and Confessores Call Dataile

Sema4 will host a conference call today, March 14, 2022, at 4:30 p.m. Eastern Time. Interested parties may access the live teleconference by dialing (844) 631-4065 for domestic callers or (929) 517-0920 for international callers, followed by conference ID: 3885425. A live and archived webcast of the event will be available on the "Events" section of the Sema4 investor relations website at <a href="https://ir.sema4.com/">https://ir.sema4.com/</a>.

#### Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the federal securities laws, including statements regarding our future performance and our market opportunity, including our full year 2022 revenue, volume and gross margin guidance, our expectations for our growth and future investment in our business, and our expectations for the proposed GeneDx acquisition, including the anticipated benefits of the acquisition and the anticipated timing of the acquisition. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "future," "opportunity," "future," "intend," "will continue," "will continue," "will likely result," and similar expressions. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this press release, including but not limited to: (i) the ability to implement business plans, goals and forecasts, and identify and realize additional opportunities, (ii) the risk of downturns and a changing regulatory landscape in the highly competitive healthcare industry, (iii) the size and growth of the market in which we operate, and (iv) the risk that the GeneDx acquisition and the related private placement financing may not be completed in a timely manner or at all. The foregoing list of factors is not exhaustive. [You should carefully consider the foregoing factors and the other risks and uncertainties described in the "Risk Factors" section of our Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2021, filled with the U.S. Securities and Exchange Commission (the "SEC") on November 15, 2021 and other documents filed by us from time to time with the SEC.][if this release follows 10-K filling, cross reference th

#### About Sema4

Sema4 is a patient-centered health intelligence company dedicated to advancing healthcare through data-driven insights. Sema4 is transforming healthcare by applying AI and machine learning to multidimensional, longitudinal clinical and genomic data to build dynamic models of human health and defining optimal, individualized health trajectories. Centrellis®, our innovative health intelligence platform, is enabling us to generate a more complete understanding of disease and wellness and to provide science-driven solutions to the most pressing medical needs. Sema4 believes that patients should be treated as partners, and that data should be shared for the benefit of all.

(1) Represents labor costs in respect laboratory employees' downtime. During the second quarter of 2020, we did not reduce the workforce in our laboratory due to the COVID-19 pandemic. However, we suffered significantly due to the decrease in volume in Women's Health and other products. Accordingly, we have adjusted our Gross Profit to reflect the management-assessed impact from the decrease in productivity of existing laboratory employees due to the COVID-19 pandemic in the second quarter of 2020.

The following is a reconciliation of our net loss to Adjusted EBITDA for the three months ended December 31, 2021 and 2020:

	Three mon	Three months ended December 31,

The information, opinions and forward-looking statements contained in this amount cement speak only as of its date, and are subject to change without notice.

Use of Non-GAAP Financial Measures
This presentation includes non-GAAP financial measures, including Adjusted EBITDA, Adjusted Gross Profit and Adjusted Gross Margin. Adjusted EBITDA is defined as net loss adjusted for interest expense, net, depreciation and amortization, stock-based compensation expenses, transaction costs, other (income) expense, net and COVID-19 costs. Management believes that these non-GAAP measures of financial results are useful in evaluating the Sernal's operating performance compared to that of other companies to its industry, as this metric generally eliminates the effects of certain terms that may vary from company for reasons unrelated to overall operating performance. These refers to the Appendix for Non-GAAP of CAAP Reconciliation.

This presentation contains estimates, projections and other information contenting our industry, our business, and the markets for our products and services, information that is based on estimates, forecasts, projections, market research or similar methodologies is inherently subject to uncertainties, and actual events or icrumstances may differ materially from events and circumstances that are assumed in this information. Unless otherwise expressly stated, we obtained this industry, business, market and other data from our own market research save less remember assumed as a similar data prepared by market research firms and other third parties, industry, medical and general publications, government data and similar sources. While we believe our internal company research as to such matters is reliable and the market definitions are appropriate, neither used necessarily as the second of the propriation of the pro
